Thanks, Bill.

I have an attorney assigned to the site file and am preparing a site status memo to share with the tribe. We will need to ask them to provide input prior to moving toward closure. They may or may not decide to offer comments.

I took a quick look at the report and it appears that there was good news on the sample results.

Talk to you soon.

Bob-

Please see the attached report discussing the results of the VI investigation at the former Clark #823 site in Mt. Pleasant, MI.

I will give you a call next week to discuss what we should do next to close the site.

Thanks for your help.
